

# Measurement Instructions for Full Pant

## PANT: STEP 1

Make your child stand erect. The shoulder should be relaxed, neck held up, and looking straight. Please make sure he/she maintains this position throughout the time you are measuring him/her.

## PANT: STEP 2

With an inch tape measures the length of the pant starting from his navel line to the base of his foot. The measuring tape needs to be held on the outer edge of the body, i.e near the side pocket. It would also help if you measure a pant that fits him well. Starting from the top of the belt measuring till the bottom.

## PANT: STEP 3

Need to measure the waist wrap the inch tape with just a finger gap around the waistline at the navel. Please DO NOT MEASURE YOUR CHILD BELOW THE NAVEL. The pant you order with this size might not fit well. Also, do not measure a bigger size anticipating future growth. Our pants come with a margin for adjustments to take care of this.

## NOTE:

### FINALLY CHECK THE SIZE AVAILABLE IN OUR SIZE CHART.

1. If you have brought uniforms at our store before, you can also check the labels of your previous year's garment. Keep that as a reference and order a size that would fit him/her now.
2. Take care that the measuring tape does not twist or run cross at any point during the measuring process.
3. If your measurement is between two sizes, you can either order the smaller size for a tighter fit the next size up for a loose fit.
4. However, if you have the slightest doubt about the fit or sizing and prefer to get professional help, please visit our store for this one time. This will give you a much better indication of your exact size for your future purchases.

# Measurement Instructions for Skirt

## SKIRT: STEP 1

Make your child stand erect. The shoulder should be relaxed, neck held up, and looking straight. Please make sure he/she maintains this position throughout the time you are measuring him/her.

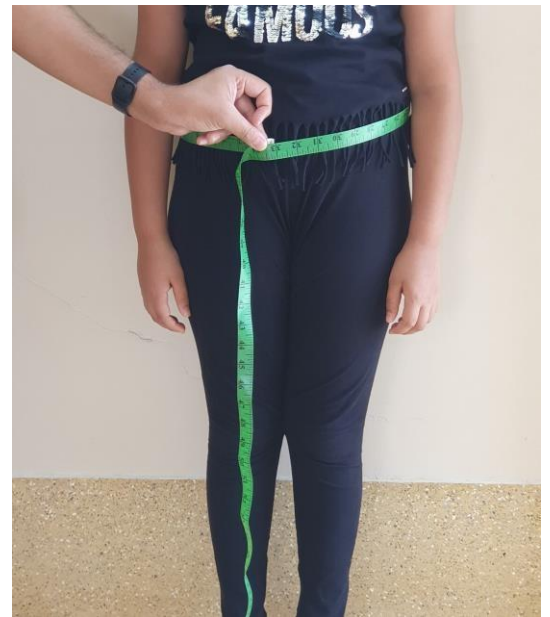

## SKIRT: STEP 2

With an inch tape measures the length of the skirt starting from her navel line to an inch above/until the knee. The measuring tape needs to be held on the outer edge of the body, i.e near the side pocket. It would also help if you measure a skirt that fits her well. Starting from the top of the belt measuring till the hem.

## SKIRT: STEP 3

Next to measure the waist wrap the inch tape with just a finger gap around the waistline at the navel. Please **DO NOT MEASURE YOUR CHILD BELOW THE NAVEL**. The skirt you order with this size might not fit well. Also, do not measure a bigger size anticipating future growth. Our skirts comes with a loop adjustments to take care of this.

## NOTE:

**FINALLY CHECK THE SIZE AVAILABLE IN OUR SIZE CHART.**

1. If you have brought uniforms at our store before, you can also check the labels of your previous year's garment. Keep that as a reference and order a size that would fit him/her now.
2. Take care that the measuring tape does not twist or run cross at any point during the measuring process.
3. If your measurement is between two sizes, you can either order the smaller size for a tighter fit the next size up for a loose fit.
4. However, if you have the slightest doubt about the fit or sizing and prefer to get professional help, please visit our store for this one time. This will give you a much better indication of your exact size for your future purchases.

# Measurement Instructions for Shirt

## SHIRT: STEP 1

Make your child stand erect. The shoulder should be relaxed, neck held up, and looking straight. Please make sure he/she maintains this position throughout the time you are measuring him/her.

## SHIRT: STEP 2

Measure the length of the shirt starting from the highest point of the shoulder all the way till you are just below the hip.

## SHIRT: STEP 3

Next to measure the shoulder beginning from one point of the shoulder till the other end, paying keen attention not letting the tape twist or run cross

## SHIRT: STEP 4

Next to measure the chest, wrap the inch tape with just below the arm. Also do not measure a bigger size anticipating future growth. Our shirt come with ample room for free movement. Attention: Generally the shoulder is half of the chest measurement and this will help you choose the right combination of size. The shoulder and the chest are primarily the key factors for a good fitting shirt

## NOTE:
